

# Survey about Distance Education at the Community College of Qatar (CCQ) During the Fall Semester 2020-2021

Student Survey with the Participation of 1500 Students

- My experience of studying by distance was good overall.
- It was easy to communicate with the faculty members and understand the material.
- Interaction during the online lectures was effective and fruitful, which increased my understanding.
- Studying by distance helped me gain new technical and non-technical skills.
- If I were to select between distance learning and physical presence, I would choose online.
- The College offered sufficient technical support.
- The platforms used helped me study smoothly.

Faculty Member Survey with the Participation of 120 Members

- Your distance education experience was good overall.
- Compared to the traditional classes, I managed to achieve the same outputs.
- I could acquire new technical skills from this experience.
- CCQ offered sufficient technical support.
